

Coaches,

Get the play diagramming tool 27 NBA and over 800 College teams are using at a ridiculously low price! **There is no catch**, Fast Model is reaching out to our membership in a BIG way.

The MBCA is thrilled to announce a partnership with Fast Model Technologies that will allow MBCA members to purchase the same FastDraw play diagramming software being used by NBA and College teams (*regularly priced at \$229.98*) for **\$35!**

[The deadline to take advantage of this incredible offer is December 1, 2010, so click here to act now!](#)

To order FastDraw for \$35, go to:

<http://fastmodelsoftware.com/statedraw>

Note: Past subscribers will need to renew their subscription for the 2010-2011 season to create new material. Material created in the past will still be accessible.

[Testimonials]

FastDraw is amazing. I would have stayed up all night entering diagrams the first night if I didn't have camp the next morning.

-Scott L, Illinois

I am very impressed with FastDraw's ease of use. It beats the Word Processor and Publisher programs hands down for Playbook generation and play organisation, which is what I am currently using. I also like that it adds a professional polish to my old playbook and will allow me to chop and change plays to suit the different teams I am involved with, without the hassle of maintaining separate playbooks for each team.

-Rob R, New Zealand

It's awesome! I'm a first year head coach and it efficiently helped me bring my staff up to speed on what we do in practice and games. Also, the people who made it really must have consulted with experts because I have not found any glitches with moves or cuts that it won't let me draw. Thanks!

-Mike W, Illinois
